

EOTS NEWSLETTER

It's no secret that ASML 2500,5000,5500 tools have far exceeded their expected lifespan and experts suggest that 100-200mm platforms will remain as a workhorse well into the 2030's. As tools and industry mature, EO Technical continues to grow as a cost-effective and reliable source for re-manufactured parts, in addition to providing equipment, service and customized training classes.

TOOLING / UPGRADES

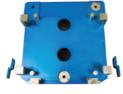

LVDT to TESA Cable

OCU - LCD Upgrade Kit

WS Adjustment Kit

Library Reference Tool

2018 YTD SUMMARY

- o 1500+ Parts Shipped
- o 9 Training Sessions Completed
